Griswold Pump Company Receives ISO 9001:2008 and ISO 14001: 2004 Certifications

Grand Terrace, CA — March 1, 2011 — Griswold™ Pump Company, a leading manufacturer of centrifugal pumps, is proud to announce it has recently received recognition as a ISO 9001:2008 (Quality Management System) and ISO 14001:2004 (Environmental Management System) certified company. These certifications cover the design development and manufacture of Griswold's pumps, pump parts and peripheral accessories.

Both certifications are from SAI Global, which provides organizations around the world with information services and solutions for managing risk, achieving compliance and driving business improvement. SAI Global audits, certifies and registers products, systems or supply chains, as well as facilitates good governance and awareness of compliance, ethics and policy issues. Griswold will now benefit from SAI Global's StandardsMark™. The StandardsMark is a mark of quality, licensed to companies whose products and or management systems have fulfilled the specified requirements such as quality, occupational health and safety, environment, information security and food safety.

"Griswold prides itself on rapid response to our customers needs, and being able to do this on time, every time is critical. The certifications demonstrate that we can deliver on this promise, while adhering to the highest standards of quality and best manufacturing practices," said Bob Mattox, Operations Manager.

Griswold Pump Company is a full-line pump manufacturer, with product lines around the world dating back over 70 years. Griswold designs and manufactures pumps for a variety of applications, including ANSI, end suction centrifugals, self-priming and submersible/vertical turbines. Griswold is committed to providing superior products, customer service and support. All pumps are manufactured in the USA to ensure the highest quality. Griswold also provides many value-added services, including inventory optimization programs, technical support for equipment performance, and engineering assistance for pump and component specification. Griswold stands behind its quality manufacturing, offering a 3-year full pump unconditional warranty.

For more information on any Griswold products, please go to www.griswoldpump.com. Griswold is an operating company within Dover Corporation's Pump Solutions Group (PSG™). For more information on PSG, please go to www.pumpsg.com.

Griswold™ Pump Co. is an operating company within Dover Corporation's Pump Solutions Group (PSG™). Formed by its parent company Dover Corporation (DOV: NYSE) in 2008, PSG combines the following operating companies into a cohesive pump organization with a broad array of pump technologies: Wilden®, the world's largest manufacturer of AODD pumps; Blackmer®, the largest global manufacturer of sliding vane pumps; Mouvex®, a manufacturer of eccentric disc pumps; Griswold™, an ANSI centrifugal pump manufacturer; Almatec®, a premier manufacturer of air-operated diaphragm pumps specializing in plastic pumps with solid housings; and Neptune®, a producer of chemical metering pumps and chemical feed systems.
