

GRISWOLD's ANSI 811 PRODUCT WARRANTY EXTENDS TO 5 YEARS

Griswold is proud to extend the warranty period of its entire ANSI 811 product line to 5 years after the date of shipment. Previously, the product warranty for pumps and parts was three years from date of shipment. The extended warranty period is a direct result of the Griswold's commitment to providing the highest quality pumps and accessories in the market today.

Effective immediately, Griswold Pump Company warrants that all ANSI 811 pumps and parts supplied by Griswold to be free from defects in material and workmanship under normal use for 5 years from date of shipment.

The Installation Operation and Maintenance (IOM) manuals, on-line PDF's, and website will be updated with this modification in a running change.
